

## Eco Mould Kill Technical Data Sheet

### Description:

Eco Mould Kill is a non-toxic, economical and easy to use biocide and sterilizing solution for general use around the home, completely safe around plants and pets and does NOT contain bleach. It can therefore be painted over without rinsing off and will not discolour drapes, carpets or clothes that may come into contact with it. It can also be used to kill mould and fungi on roofs and exterior surfaces. It is important to note that although it will kill mould, fungi and germs on contact, it will not bleach them. It is recommended that the surface be water blasted or scrubbed with Eco Mould Kill to remove the physical debris of dead Fungi.

### Physical Properties:

The retail concentrate is a ready to use product of 4% active Cetrimide

- **Main active:** Cetrimide
- **Solvent:** Water
- **Colour:** Clear
- **Thinning and cleanup:** Water

### Application:

Eco Mould Kill may be applied by brush, spray, sponge or washcloth to remove any solid residue from the surface. Liquid should not be rinsed off and can be painted over when dry.

### Health & Safety:

**Spills:** Do not allow spilled material to enter storm water drains, absorb with sand or sawdust, allow to dry, and then dispose of as solid waste. Dispose of empty containers according to local council regulations.

### First aid:

See M.S.D.S. for this product. If swallowed **do not** induce vomiting, give plenty of water to drink. If in eyes, hold open and flood with clean water for several minutes. Call doctor if necessary.
